**BIRNAM
EXCAVATING LTD.**

Our employees have the experience, expertise, and excellence to safely get the job done right.

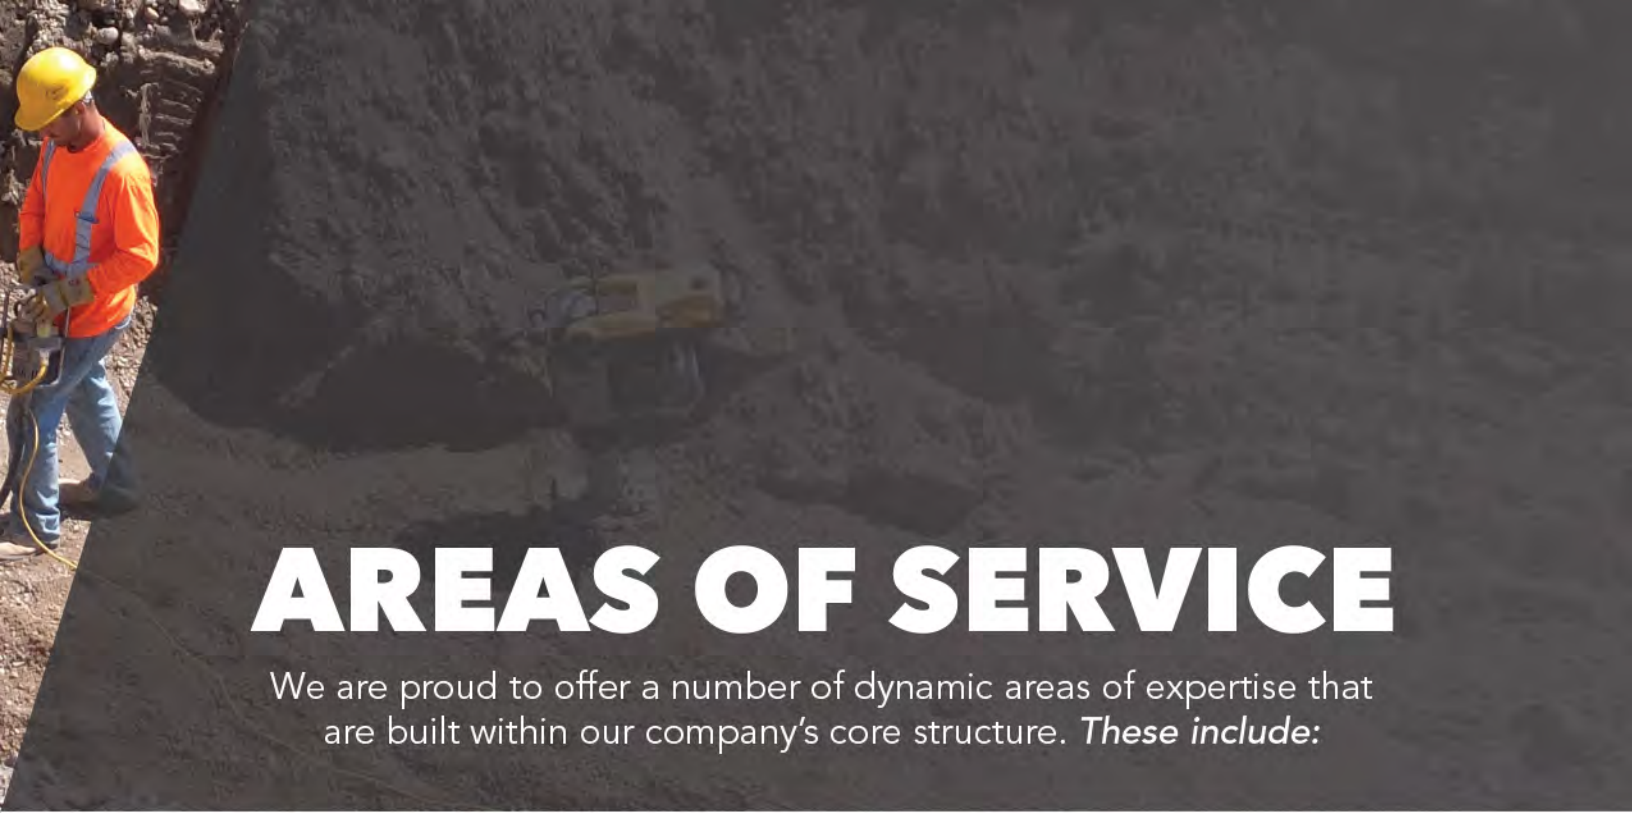

At its very core, Birnam Excavating Ltd. is a company that strives to provide effective and high quality solutions to all civil construction needs.

From large-scale contracts to small-scale projects, Birnam has been meeting the needs of numerous engineers, municipalities, and construction clients throughout Southwestern

Ontario since 1973. With over 60 field and administrative employees and an impressive fleet of equipment and tools, we are eager to safely complete any civil project.

SERVING YOUR COMMUNITY SINCE 1973

AREAS OF SERVICE

We are proud to offer a number of dynamic areas of expertise that are built within our company's core structure. *These include:*

HEAVY CIVIL PROJECTS

Our heavy civil division is our core service and handles all types of projects while ensuring that each task is completed safely, efficiently, and professionally. From sewer, water, and roadwork to subdivision construction and bridges – Birnam has the people and the tools to deliver the best results on jobs ranging from tens of thousands to tens of millions of dollars in both urban and rural areas.

GENERAL CONTRACTING

Birnam has committed to carry over its strength in heavy civil contracting to the general contracting world. We have brought in key staff who have helped us expand and focus on the Municipal ICI Sector. Although there are many types of projects in this division, we have maintained a focus on sewer and water systems, completing projects such as treatment plants, pump stations and booster stations.

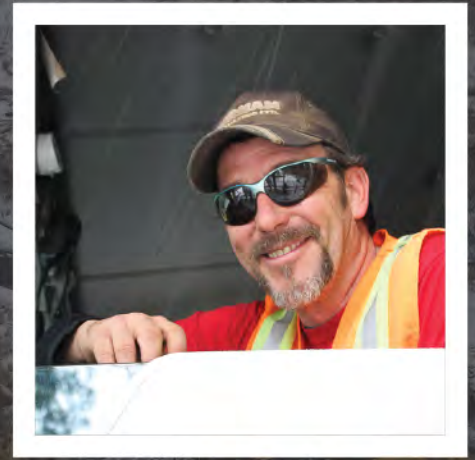

ENVIRONMENTAL

As the environmental sector continues to grow, Birnam has grown with it. Whether it be waterway protection, controlling vegetation against erosion, or working with hazardous materials, Birnam is confident in successfully completing projects with tight environmental constraints and controls. We look forward to working with you on your next environmentally sensitive project.

BIRNAM EXCAVATING LTD.

ABOUT

Here at Birnam, we strive to build long-lasting relationships based on integrity, hard work, and excellent customer service. We are proud of the strong partnerships and relationships we have built with each of our clients over the years. Through each of these relationships and various projects, we have been able to continually expand our portfolio and grow to meet the developing needs of our clients in this ever-changing and evolving industry.

Birnam has developed, expanded, and continued to succeed under Mark and Teresa Van Bree after being founded by Frank and Elsie Van Bree in 1973. Today, with the addition of Kevin and Bryan Van Bree as owners, we have melded into a close team that works together to meet all aspects of our projects on spec, on time, and on budget. We gravitate towards the challenging projects, providing the energy, tools, and hard work required to complete each task with excellence.

VISION

While Birnam has seen impressive growth over the years, we strive to keep sight of what sets us apart from other companies: valuing and investing in our employees who are dedicated to taking on and

completing challenging and complex projects safely. We meet the changing needs of our clients and safely complete our projects with the best customer service and efficiency.
